

Certificate

Ezaldeen Nasser Sa'ad Albadi

has successfully attended the

ValueLinks training
Sustainable Value Chain Development

From 13th to 17th August 2023

Training objectives

Participants acquired state-of-the-art know-how on applying the value chain concept in development cooperation following the *ValueLinks* methodology. The seminar imparted methods and procedures for conducting value chain analyses and designing appropriate upgrading and facilitation strategies. This included tools to foster innovative business models, business linkages, as well as strengthening services, standards and the business environment. In a series of working group exercises, participants applied the principles to real cases in different value chains.

Modules of the *ValueLinks* methodology covered

The value chain approach/selecting value chains (Module 1)
Analysing value chains (Module 2)
Determining a vision and upgrading strategy (Module 3)
Facilitating value chain promotion (Module 4)
Upgrading solutions (Modules 5-10)
Monitoring and data management (Module 11)
